

I urge you to allow me my right to hear what I want when I want it .  
This Country was built on freedom and we keep losing one item of freedom after another.

Secondly, We here pay for this service and as a paying customer I feel I should get whatever my provider can give me to enrich my service, and make it that much more enjoyable.

When are we in this country of ours are gona wake up and worry about the real problems that plague us.

Not some suit in an office that makes millions of \$\$\$\$\$\$\$ trying to dictate where his big stock dollars are going.

Thank you, Anthony J. Finocchio
